

Copperfield Litter Bin

Product Code: MESWCOPP

The Copperfield litter bin features an attractive, Victorian style appearance and is available in a choice of three standard colours, each with a decorative gold band around the circumference of the bin.

The bin is manufactured from tough and durable, UV resistant Polyethylene and is ideally suited to both indoor and outdoor locations.

Each bin is supplied with either a galvanised metal or plastic liner which can be removed by unscrewing the lockable top section of the bin.

The bin can be securely fixed to the ground using the ground fixing bolts which are supplied as standard with each bin, alternatively the bin can be weighted down using the optional concrete ballast which sits inside the bin.

Standard Colours

Black

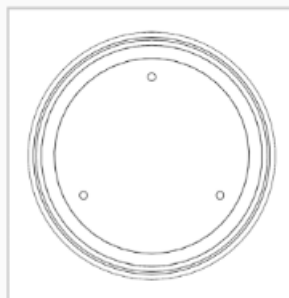

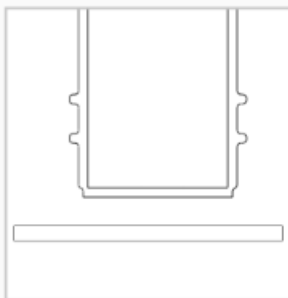

Burgundy

Green

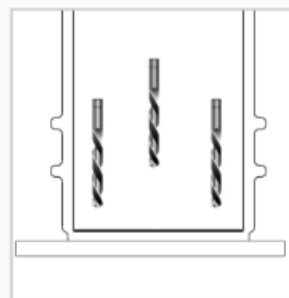

Please note the above colours offer an approximation and should not be used as an exact match.

If you require a colour that is not among our standard colours, please contact us as more colours may be available upon request

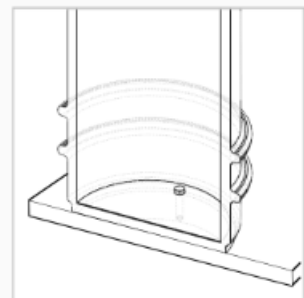

Fixing Instructions

2] Insert fixing plate inside the bin.

3] Using Fixing Plate as a guide, drill 3 x M10 holes 80mm deep.

4] Secure the Bin to the Base using 3 bolts. Place liner into bin to cover over fixing.
