

C-Bin

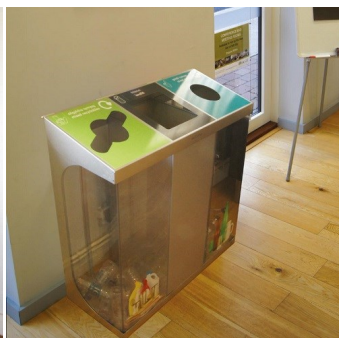

Available in a choice of four sizes

Single

Double

Triple

Quad

The C-Bin is an internal recycling unit available in a choice of four sizes with either a 60 or 80 litre capacity compartments. The bins feature hinged lift up lids and a removable bodies that can be lifted out for emptying or cleaning. For added security in high risk areas, a push lock can be fitted to the lid.

The C-Bin and lid are manufactured from 1.2mm thick galvanised steel making them extremely robust, durable and corrosion resistant. As standard the C-Bin's frame is powder coated in silver with the body available in the same colour or with a transparent polycarbonate plastic body. Both body finishes feature high corrosion and abrasion resistance and they are also fire retardant.

The transparent body is designed to help prevent cross contamination of waste streams by allowing users to see the contents of the bin. The powder coated finish is designed for hiding unsightly waste streams such as food waste.

Dimensions

C-Bin Single

Dimensions	60 Litre	80 Litre
Height	760mm	910mm
Width	320mm	320mm
Depth	330mm	330mm
Weight	10 kg	12 kg

C-Bin Double

Dimensions	60 Litre	80 Litre
Height	760mm	910mm
Width	640mm	640mm
Depth	330mm	330mm
Weight	18 kg	20 kg

C-Bin Triple

Dimensions	60 Litre	80 Litre
Height	760mm	910mm
Width	960mm	960mm
Depth	330mm	330mm
Weight	23 kg	25 kg

C-Bin Quad

Dimensions	60 Litre	80 Litre
Height	760mm	910mm
Width	320mm	320mm
Depth	330mm	330mm
Weight	10 kg	12 kg

Body Materials

The transparent body is designed to help prevent cross contamination of waste streams by allowing users to see the contents of the bin.

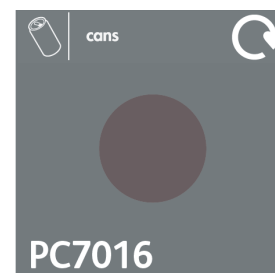

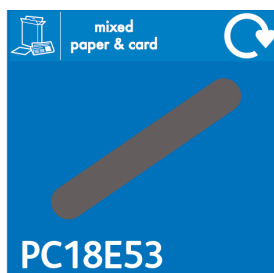

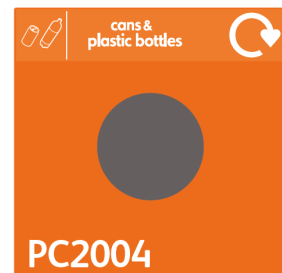

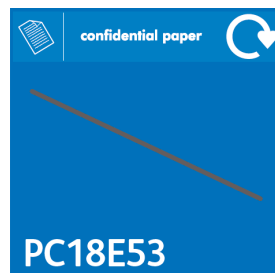

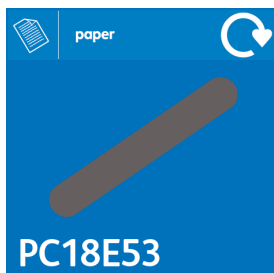

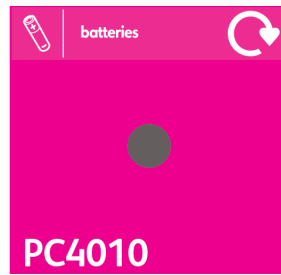

An epoxy powder coated galvanised steel in silver. The powder coated finish is ideal for hiding unsightly waste streams such as food waste.

*Both finishes feature high corrosion and abrasion resistance and are fire retardant

Fascia's

A large choice of fascia options is available with apertures to suit the recycling stream chosen.

*The two lid choices above are only available with a powder coated body

Optional Extras

Locking Lid

Add a push lock for added security.
Ideal for confidential lids.

Message Board

A message board can be added to the Box Cycle and this can be used to display vinyl stickers, magnetic labels or our optional poster frames.

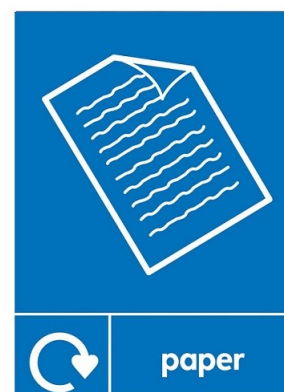

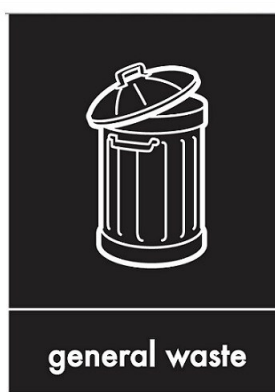

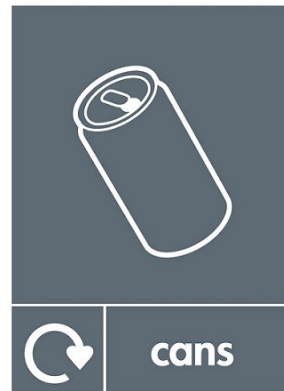

Advertising Frames

Advertising frames can be added allowing posters to be displayed. The artwork can be changed easily by un-clipping the sides of the frame.

Artwork

A4 (210 x 297mm) vinyl stickers positioned on the front of the body to make your waste stream visible.
